Riders bio

Šárka Pančochová (I use Sarka Panc, it's easier for pronunciation, especially on events they've never used the right name) I live in a really small city in the Czech Republic. We don't have bigger mountains, so I just always travel everywhere to the Alps for my snowboarding.

I started with snowboarding in the year 2002 and I got my first sponsors in the season 05/06. Everything's changed since that days. I've got individual studying plan and I've moved from my home to travel bag and team van. Always on the mountains.

I really like to be free in everything what I do. And I love to explore new things and friend everywhere. Really important thing in my life is music, also when I'm riding. It makes me so happy. My home resort in Czech is Dolni Morava.

I also do other sports except snowboarding. I love swimming, skateboarding and climbing a bit. Through the summer training I sometimes visit the fitness.
